

# IOSH

## Managing Safely

**IOSH Managing Safely is a very popular and highly regarded course, providing a good basic introduction to health and safety for the non-safety specialist. Our pass rate for this course is 100% and we delighted to have been selected as preferred supplier by IOSH to deliver their training internally to their employees.**

### **Duration**

Four days including exam.

### **Who should attend**

Supervisors and Line Managers.

### **Aims and objectives**

Equip the delegate to have an understanding of health and safety requirements and legislation and their implications in the workplace.

On successful completion of the course, candidates will be able to:

- Identify how and why health and safety forms an integral part of any manager's or supervisor's responsibilities
- Identify hazards in the workplace and the range of control measures available
- Understand and be able to conduct the basic process involved in risk assessment
- Define their legal responsibilities and the responsibilities of their staff with regard to health and safety in the workplace
- Understand why incidents involving damage or injury occur
- Communicate effectively on health and safety matters with their staff, managers and safety advisors
- Have a basic understanding of attitude to risk and the physical and psychological limitations in the causation of incidents and accidents.

### **Content**

- Statutory requirements
- Loss appreciation
- Risk management
- Safety management models
- Human factors and safety performance
- Recognition and control of workplace hazards
- Effective communication

### **Assessment method**

Short written assessment and work based assignment

### **Certification**

The programme is assessed and moderated by IOSH. Certificates are issued to successful candidates.
