

Introduction to Health & Safety

Keeping up with the legal requirements in relation to Health and Safety can be challenging, especially with the vast array of new regulations over recent years. Unfortunately, ignorance of the law is no defence. This course has been designed for individuals who have been nominated as responsible for Health and Safety, without any prior background or training in this area. Designed to cover all of the basics in Health and Safety, in terms of the law and it's practical implementation, it will ensure that delegates leave the day with a confidence and understanding to deal with issues of Health & Safety at work.

Duration

One day.

Who should attend

This course is suitable for persons who have been nominated as responsible for Health and Safety, without prior training in this area.

Aims and objectives

This course will provide delegates with a basic understanding and introduction to Health and Safety at Work, and ultimately a confidence to implement health and safety policies and procedures within their work place.
